NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(in thousands, except share and per share amounts)
(unaudited)

NOTE 1 – BASIS OF PRESENTATION

These interim unaudited condensed consolidated financial statements have been prepared in accordance with United States of America ("U.S.") generally accepted accounting principles ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X of the United States Securities and Exchange Commission ("SEC") for interim financial reporting and should be read in conjunction with the consolidated financial statements and related notes of Hudson Global, Inc. and its subsidiaries (the "Company") filed in its Annual Report on Form 10-K for the year ended December 31, 2017.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of operating revenues and expenses. These estimates are based on management's knowledge and judgments. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the Company's financial position, results of operations, and cash flows at the dates and for the periods presented have been included. The results of operations for interim periods are not necessarily indicative of the results of operations for the full year. The Condensed Consolidated Financial Statements include the accounts of the Company and all of its wholly-owned and majority-owned subsidiaries. All significant intra-entity balances and transactions between and among the Company and its subsidiaries have been eliminated in consolidation. Certain prior period amounts have been reclassified to conform to the current year presentation with no material impact on the condensed consolidated financial statements.

NOTE 2 – DESCRIPTION OF BUSINESS

The Company is comprised of the operations, assets, and liabilities of the three Hudson regional businesses of Hudson Americas, Hudson Asia Pacific, and Hudson Europe ("Hudson regional businesses" or "Hudson"). The Company provides specialized professional-level recruitment and related talent solutions. During the first quarter of 2018, the Company's core service offerings included Permanent Recruitment, Contracting, Recruitment Process Outsourcing ("RPO"), and Talent Management Solutions. On March 31, 2018 the Company completed the sale of its Recruitment and Talent Management ("RTM") businesses in three separate transactions and retained its RPO business. The first quarter results for the RTM businesses are reported as discontinued operations. For more information, see Note 5.

As a result of the divestiture of the RTM businesses, the Company now operates directly in nine countries with three reportable geographic business segments: Hudson Americas, Hudson Asia Pacific, and Hudson Europe. See Note 13 for further details regarding the reportable segments.

The Company's core service offering following the divestiture is RPO. The Company delivers RPO permanent recruitment and contracting outsourced recruitment solutions tailored to the individual needs of primarily mid-to-large-cap multinational companies. The Company's RPO delivery teams utilize state-of-the-art recruitment process methodologies and project management expertise in their flexible, turnkey solutions to meet clients' ongoing business needs. The Company's RPO services include complete recruitment outsourcing, project-based outsourcing, contingent workforce solutions, and recruitment consulting.

Corporate expenses are reported separately from the reportable segments and pertain to certain functions, such as executive management, corporate governance, human resources, accounting, tax, marketing, information technology, and treasury. A portion of these expenses are attributed to the reportable segments for providing the above services to them and have been allocated to the segments as management service fees and are included in the segments' non-operating other income (expense).

NOTE 3 – ACCOUNTING PRONOUNCEMENTS**Adoption of New Accounting Pronouncements**

On January 1, 2018, we adopted Accounting Standards Updates ("ASU") No. 2014-09, "Revenue from Contracts with Customers (Topic 606)" ("ASU 2014-09") and a series of related accounting standard updates designed to create improved revenue recognition and disclosure comparability in financial statements. For more information, see Note 4.

On January 1, 2018, we retroactively adopted ASU No. 2016-18, "Statement of Cash Flows (Topic 230): Restricted Cash (a consensus of the Financial Accounting Standards Board (the "FASB") Emerging Issues Task Force)." This ASU requires the statements of cash flows to present the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents are now included with cash and cash equivalents when reconciling the beginning of period and end of period amounts presented on the statements of cash flows. The retrospective application of this new accounting guidance resulted in a decrease of \$201 in "Decrease (increase) in prepaid and other assets" in Net Cash used in Operating Activities, an increase of \$1,189 in "Cash, Cash Equivalents, and Restricted Cash, beginning of the period," and an increase of \$989 in "Cash, Cash Equivalents, and Restricted Cash, end of period" in our accompanying consolidated statement of cash flows for the nine months ended September 30, 2017 from what was previously presented in our Quarterly Report on Form 10-Q for the nine months ended September 30, 2017.

In May 2017, the FASB issued ASU No. 2017-09, "*Compensation - Stock Compensation: Scope of Modification Accounting*" ("ASU 2017-09"), which provides guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting. An entity will account for the effects of a modification unless the fair value of the modified award is the same as the original award, the vesting conditions of the modified award are the same as the original award, and the classification of the modified award as an equity instrument or liability instrument is the same as the original award. ASU 2017-09 is effective for all annual periods and interim periods within those annual periods, beginning after December 15, 2017, with early adoption permitted. The Company adopted ASU 2017-09 on January 1, 2018. The adoption had no impact on the Company's condensed consolidated financial statements.

Recently Issued Accounting Pronouncements

In August 2018, the FASB issued ASU No. 2018-15, "*Customer Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That is a Service Contract.*" ("ASU 2018-15"), which requires implementation costs incurred by customers in a cloud computing arrangement to be deferred and recognized over the term of the arrangement, if those costs would be capitalized by the customer in a software licensing arrangement under the internal-use software guidance in Accounting Standards Codification ("ASC") 350-40. The amendments in ASU 2018-15 are effective for annual periods beginning after December 15, 2019 and interim periods within those annual periods. Early adoption is permitted. The Company is currently evaluating the impact to its consolidated financial statements.

In February 2018, the FASB issued ASU No. 2018-02, "*Income Statement-Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income*" ("ASU 2018-02"), which provides guidance on reclassification of certain stranded income tax effects in accumulated other comprehensive income resulting from the Tax Cuts and Jobs Act of 2017 (the "Tax Act"), enacted on December 22, 2017. ASU No. 2018-02 allows a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the application of the Tax Act. Additionally, ASU No. 2018-02 requires financial statement preparers to disclose (1) a description of their accounting policy for releasing income tax effects from accumulated other comprehensive income, (2) whether they elect to reclassify the stranded income tax effects from the Tax Act, and (3) information about other income tax effects related to the application of the Tax Act that are reclassified from accumulated other comprehensive income to retained earnings, if any. The amendments in ASU 2018-02 are effective for annual periods beginning after December 15, 2018 and interim periods within those annual periods. Early adoption is permitted. The Company is currently evaluating the impact to its consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, "*Leases (Topic 842)*" ("ASU 2016-02"). This ASU requires a company to recognize lease assets and liabilities arising from operation leases in the statement of financial position. This ASU does not significantly change the previous lease guidance for how a lessee should recognize the recognition, measurement, and presentation of expenses and cash flows arising from a lease. Additionally, the criteria for classifying a finance lease versus an

HUDSON GLOBAL, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

operating lease are substantially the same as the previous guidance. In July 2018, the FASB issued ASU No. 2018-11, "*Leases (Topic 842): Targeted Improvements ("ASU 2018-11")*". This ASU allows adoption of the standard as of the effective date without restating prior periods. The amendments in these ASUs are effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years, and early adoption is permitted. We plan to adopt this ASU on January 1, 2019 and elect to not apply the recognition requirements to short-term leases and instead recognize the lease payments on a straight line basis over the lease term. We plan to complete our implementation plan during the fourth quarter of 2018 and report the results in our annual report.

There are no other recently issued accounting pronouncements that have had, or that the Company believes will have, a material impact on the Company's condensed consolidated financial statements.

NOTE 4 – REVENUE RECOGNITION

Adoption of New Revenue Recognition Guidance

On January 1, 2018, the Company adopted ASU 2014-09 using the modified retrospective approach. Under this method, the guidance is applied only to the most current period presented in the financial statements. ASU 2014-09 outlines a single comprehensive revenue recognition model for revenue arising from contracts with customers and supersedes most of the previous revenue recognition guidance, including industry-specific guidance. Under ASU 2014-09, an entity recognizes revenue for the transfer of promised goods or services to customers in an amount that reflects the consideration for which the entity expects to be entitled in exchange for those goods or services. Our revenue recognition practices remained substantially unchanged as a result of adoption ASU 2014-09 and we did not have any significant changes in our business processes or systems.

Nature of Services

We account for a contract when both parties to the contract have approved the contract, the rights of the parties are identified, payment terms are identified, the contract has commercial substance, and collectability of consideration is probable. Revenues are recognized over time, using an output measure, as the control of the promised services is transferred to the client in an amount that reflects the consideration we expect to be entitled to in exchange for those services. The majority of our contracts are short-term in nature as they include termination clauses that allows either party to cancel within a short termination period, without cause. Revenue includes billable travel and other reimbursable costs and are reported net of sales or use taxes collected from clients and remitted to taxing authorities.

We generally determine standalone selling prices based on the prices included in the client contracts, using expected cost plus profit, or other observable prices. The price as specified in our client contracts is generally considered the standalone selling price as it is an observable input that depicts the price as if sold to a similar client in similar circumstances. Certain client contracts have variable consideration, including usage based fees that increase the transaction price and volume rebates or other similar items that generally reduce the transaction price. We estimate variable consideration using the expected value method based on the terms of the client contract and historical evidence. These amounts may be constrained and are only included in revenue to the extent we do not expect a significant reversal when the uncertainty associated with the variable consideration is resolved. Our estimated amounts of variable consideration subject to constraints are not material and we do not believe that there will be significant changes to our estimates.

We record accounts receivable when our right to consideration becomes unconditional. Contract assets primarily relate to our rights to consideration for services provided that they are conditional on satisfaction of future performance obligations. A contract liability for deferred revenue is recorded when consideration is received, or is unconditionally due, from a client prior to transferring control of services to the client under the terms of a contract. Deferred revenue balances typically result from advance payments received from clients prior to transfer services. We do not have any material contract assets or liabilities as of and for the nine months ended September 30, 2018.

Payment terms vary by client and the services offered. We consider payment terms that exceed one year to be extended payment terms. Substantially all of the Company's contracts include payment terms of 90 days or less and we do not extend payment terms beyond one year.

HUDSON GLOBAL, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(in thousands, except share and per share amounts)
(unaudited)

We primarily record revenue on a gross basis as a principal in the Consolidated Statements of Operations and Comprehensive Income based upon the following key factors:

- We maintain the direct contractual relationship with the client and are responsible for fulfilling the service promised to the client.
- We maintain control over our contractors while the services to the client are being performed, including our contractors' billing rates.

RPO Recruitment. We provide complete recruitment outsourcing, project-based outsourcing, and recruitment consulting for clients' permanent staff hires. We recognize revenue for our RPO recruitment over time in an amount that reflects the consideration we expect to be entitled to and have an enforceable right to payment in exchange for our services. The client simultaneously receives and consumes the benefits of the services as they are provided. The transaction prices contains both fixed fee and variable usage based consideration. Variable usage based consideration is constrained by candidates accepting offers of permanent employment. We recognized revenue on the fixed fee as the performance obligations are satisfied and usage based fees as the constraint is lifted. We do not incur incremental costs to obtain our RPO recruitment contracts. The costs to fulfill these contracts are expensed as incurred.

RPO Contracting. We provide RPO clients with a range of outsourced professional contract staffing services and managed service provider services offered sometimes on a standalone basis and sometimes as part of a blended total talent solution. We recognize revenue for our RPO contracting services over time as services are performed in an amount that reflects the consideration we expect to be entitled to and have an enforceable right to payment in exchange for our services, which is generally calculated as hours worked multiplied by the agreed-upon hourly bill rate. The client simultaneously receives and consumes the benefits of the services as they are provided. We do not incur incremental costs to obtain our RPO contracting contracts. The costs incurred to fulfill these contracts are expensed as incurred.

Unsatisfied performance obligations. As a practical expedient, we do not disclose the value of unsatisfied performance obligations for (i) contracts with an expected original duration of one year or less and (ii) contracts for which we recognize revenue at the amount to which we have the right to invoice for services performed.

Disaggregation of Revenue

The following table presents our disaggregated revenues from continuing operations by revenue source. For additional information on the disaggregated revenues by geographical segment, see Note 13 of the Notes to the Condensed Consolidated Financial Statements.

NOTE 5 – DISCONTINUED OPERATIONS

On March 31, 2018, the Company completed the sale of its RTM Businesses in Belgium, Europe (excluding Belgium) and Asia Pacific ("APAC") in separate transactions (the "Sale Transactions") to Value Plus NV, Morgan Philips Group S.A., and Apache Group Holdings Pty Limited, respectively. The gross proceeds from the sale were \$38,960. In addition \$17,626 of debt was assumed by the buyers.

The following is a reconciliation of the gross proceeds to the net proceeds as presented in the statement of cash flows for the nine months ended September 30, 2018.

Gross proceeds	\$ 38,960
Add: purchase price adjustments	149
Less: cash and restricted cash sold	(9,547)
Less: transaction costs	(1,642)
Net cash proceeds as presented in the statement of cash flows	\$ 27,920

The divestiture generated a pre-tax gain of \$13,985 for the nine months ended September 30, 2018, which includes a benefit of \$10,819 reclassification adjustment relating to the net foreign currency translation gains previously included in accumulated other comprehensive income. The pre-tax gain is subject to adjustment for various purchase price adjustments.

The RTM businesses met the criteria for discontinued operations set forth in ASC 205 on March 31, 2018 subsequent to approval of the sale by our stockholders. The Company reclassified its discontinued operations for all periods presented and has excluded the results of its discontinued operations from continuing operations and from segment results for all periods presented.

RTM Revenue Recognition

The Company's RTM businesses delivered permanent recruitment, contracting, and talent management solutions to its clients. The contracts have a single performance obligations and we recognized revenue from these services over time in an amount that reflects the consideration expected to be entitled to in exchange for our services. We do not incur incremental costs to obtain these contracts. The costs to fulfill these contracts were expensed as incurred. See Note 4 for additional information on the Company's revenue recognition policies.

Permanent recruitment revenue. We recognize permanent placement revenue when employment candidates accept offers of permanent employment. We have a substantial history of estimating the financial impact of permanent placement candidates who do not remain with its clients through the typically 90-day guarantee period. Fees to clients are generally calculated as a percentage of the new employee's annual compensation. No fees for permanent placement services are charged to employment candidates.

Temporary contracting revenue. We recognize temporary contracting revenue over time in the amount to which the Company has a right to invoice, when the services are rendered by the Company's temporary employees which is generally calculated as hours worked multiplied by the agreed-upon hourly bill rate. The client simultaneously receives and consumes the benefits of the services as they are provided. We do not incur costs to obtain our temporary contracting contracts. The costs incurred to fulfill these contracts are expensed as incurred.

Talent management revenue. Talent management services generally contain a single performance obligation satisfied over time. Revenue is recognized over time as the performance obligation is satisfied, because the services provided do not have any alternative use to the Company, and contracts generally include language giving the Company an enforceable right to payment for services provided to date. We measure revenue using an output method. Cost incurred represents work performed and thereby best depicts the transfer of control to the customer.

NOTE 6 – STOCK-BASED COMPENSATION

Incentive Compensation Plan

The Company maintains the Hudson Global, Inc. 2009 Incentive Stock and Awards Plan, as amended and restated May 24, 2016 (the "ISAP"), pursuant to which it can issue equity-based compensation incentives to eligible participants. The ISAP permits the granting of stock options, restricted stock, restricted stock units, and other types of equity-based awards. The Compensation Committee (the "Compensation Committee") of the Company's Board of Directors (the "Board") will establish such conditions as it deems appropriate on the granting or vesting of stock options, restricted stock, restricted stock units, and other types of equity-based awards. As determined by the Compensation Committee, equity awards also may be subject to immediate vesting upon the occurrence of certain events following a change in control of the Company. The Company primarily grants restricted stock and restricted stock units to its employees. A restricted stock unit is equivalent to one share of the Company's common stock and is payable only in common stock of the Company issued under the ISAP.

The Compensation Committee administers the ISAP and may designate any of the following as a participant under the ISAP: any officer or other employee of the Company or its affiliates or individuals engaged to become an officer or employee; consultants or other independent contractors who provide services to the Company or its affiliates; and non-employee directors of the Company. On May 24, 2016, the Company's stockholders approved an amendment and restatement of the ISAP to, among other things, increase the number of shares of the Company's common stock that are reserved for issuance by 2,400,000 shares. As of September 30, 2018, there were 1,143,277 shares of the Company's common stock available for future issuance under the ISAP.

The following table presents a summary of the quantity and vesting conditions for stock-based units granted to the Company's employees for the nine months ended September 30, 2018:

Vesting conditions	Number of Restricted Stock Units Granted
Performance and service conditions (1) (2)	220,000
Performance and service conditions (1) (3)	207,353
Total shares of stock award granted	427,353

(1) The performance conditions with respect to restricted stock units may be satisfied as follows:

- (a) For employees from the Americas, APAC, and Europe 70% of the restricted stock units may be earned on the basis of performance as measured by a "regional adjusted EBITDA," and 30% of the restricted stock units may be earned on the basis of performance as measured by a "group adjusted EBITDA"; and
- (b) For employees from the Corporate office 50% of the restricted stock units may be earned on the basis of performance as measured by a "group adjusted EBITDA," and 50% of the restricted stock units may be earned on the basis of performance as measured by a "corporate costs" target.

(2) To the extent restricted stock units are earned on the basis of performance, such restricted stock units will vest on the basis of service as follows:

- (a) 33% of the restricted stock units will vest on the first anniversary of the grant date;
- (b) 33% of the restricted stock units will vest on the second anniversary of the grant date; and
- (c) 34% of the restricted stock units will vest on the third anniversary of the grant date; provided that, in each case, the employee remains employed by the Company from the grant date through the applicable service vesting date.

(3) To the extent restricted stock units are earned on the basis of performance, such restricted stock units will vest on the basis of service as follows:

- (a) 66.6% of the restricted stock units will vest on the first anniversary of the last day of the performance period;

HUDSON GLOBAL, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(in thousands, except share and per share amounts)
(unaudited)

- (b) 16.7% of the restricted stock units will vest on the second anniversary of the last day of the performance period;
- (c) 16.7% of the restricted stock units will vest on the third anniversary of the last day of the performance period; provided that, in each case, the employee remains employed by the Company from the grant date through the applicable service vesting date.

The Company also maintains the Director Deferred Share Plan (the "Director Plan") pursuant to which it can issue restricted stock units to its non-employee directors. A restricted stock unit is equivalent to one share of the Company's common stock and is payable only in common stock issued under the ISAP upon a director ceasing service as a member of the Company's Board. The restricted stock units vest immediately upon grant and are credited to each of the non-employee director's retirement accounts under the Director Plan. Restricted stock units issued under the Director Plan contain the right to a dividend equivalent award in the form of additional restricted stock units. The dividend equivalent award is calculated using the same rate as the cash dividend paid on a share of the Company's common stock, and then divided by the closing price of the Company's common stock on the date the dividend is paid to determine the number of additional restricted stock units to grant. Dividend equivalent awards have the same vesting terms as the underlying awards. During the nine months ended September 30, 2018, the Company granted 244,300 restricted stock units to its non-employee directors pursuant to the Director Plan. As of September 30, 2018, 1,118,084 restricted stock units are deferred.

For the three and nine months ended September 30, 2018 and 2017, the Company's stock-based compensation expense related to stock options and restricted stock units were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,

Stock Options

Stock options granted by the Company generally expire between five and ten years after the date of grant and have an exercise price of at least 100% of the fair market value of the underlying share of common stock on the date of grant.

As of September 30, 2018, the Company had no unrecognized stock-based compensation expense related to outstanding unvested stock options.

Changes in the Company's stock options for the nine months ended September 30, 2018 and 2017 were as follows:

Restricted Stock Units

As of September 30, 2018, the Company had approximately \$539 of unrecognized stock-based compensation expense related to outstanding unvested restricted stock units. The Company expects to recognize that cost over a weighted average service period of 2.09 years. Restricted stock units have no voting or dividend rights until the awards are vested.

NOTE 7 – INCOME TAXES

Income Tax Provision

On December 22, 2017, the President of the U.S. signed into law the Tax Act. The legislation significantly changes U.S. tax law by, among other things, lowering corporate income tax rates, implementing a territorial tax system, and imposing a repatriation tax on deemed repatriated earnings of foreign subsidiaries. The Company recognized the income tax effects of the Tax Act in its 2017 financial statements in accordance with Staff Accounting Bulletin No. 118 ("SAB-118"), which provides SEC staff guidance for the application of ASC Topic 740, Income Taxes, in the reporting period in which the Tax Act was signed into law. As such, the Company's financial results reflect the income tax effects of the Tax Act for which the accounting under ASC Topic 740 is complete and provisional amounts for those specific income tax effects of the Tax Act for which the accounting under ASC Topic 740 is incomplete but a reasonable estimate could be determined. The Company did not identify items for which the income tax effects of the Tax Act have not been completed and a reasonable estimate could not be determined as of December 31, 2017.

The Company recorded a provisional amount of \$0 tax payable with respect to the deemed mandatory repatriation of undistributed foreign earnings of foreign subsidiaries and the Company has elected to account for the global intangible low-taxed income ("GILTI") tax, if applicable, in the period in which it is incurred, and therefore has not provided any deferred tax impacts of GILTI in its condensed consolidated financial statements for the year ended December 31, 2017. On this basis, the net impact on tax expense provided in the Company's condensed consolidated financial statements for the year ended December 31, 2017 related to the Tax Act is \$0. The ultimate impact may differ from the provisional amounts due to additional analysis, changes in interpretations and assumptions, and additional regulatory guidance. The accounting under SAB-118 is expected to be completed during the fourth quarter of 2018. We do not believe potential adjustments in future periods will materially impact our financial condition or results of operations.

During the nine months ended September 30, 2018, the Company did not make any adjustments to its provisional amounts included in its condensed consolidated financial statements for the year ended December 31, 2017. Also, because the Company has not recognized tax benefits in its financial statements for U.S. tax losses, there is \$0 tax impact of the inclusion of GILTI income as a period cost during the nine months ended September 30, 2018, however we continue to evaluate the provisions of the Tax Act for the intraperiod allocation of such taxes between continued and discontinued operations.

Under ASC 270, "Interim Reporting", and ASC 740-270, "Income Taxes – Intra Period Tax Allocation", the Company is required to adjust its effective tax rate for each quarter to be consistent with the estimated annual effective tax rate. Jurisdictions with a projected loss for the full year where no tax benefit can be recognized are excluded from the calculation of

HUDSON GLOBAL, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(in thousands, except share and per share amounts)
(unaudited)

the estimated annual effective tax rate. Applying the provisions of ASC 270 and ASC 740-270 could result in a higher or lower effective tax rate during a particular quarter, based upon the mix and timing of actual earnings versus annual projections.

Effective Tax Rate

The provision for income taxes for the nine months ended September 30, 2018 was \$393 on a pre-tax loss from continuing operations of \$4,680, compared to a provision for income taxes of \$850 on pre-tax loss from continuing operations of \$842 for the same period in 2017. The Company's effective income tax rate was negative 8.4% and 101.0% for the nine months ended September 30, 2018 and 2017, respectively. For the nine months ended September 30, 2018, the effective tax rate differed from the U.S. Federal statutory rate of 21% primarily due to the inability of the Company to recognize tax benefits on certain losses until positive earnings are achieved in the U.S. and certain other foreign jurisdictions, non-deductible expenses, and variations from the U.S. tax rate in foreign jurisdictions. For the nine months ended September 30, 2017, the effective tax rate differed from the U.S. Federal statutory rate of 35% primarily due to the inability of the Company to recognize tax benefits on certain losses until positive earnings are achieved in the U.S. and certain other foreign jurisdictions, non-deductible expenses, and variations from the U.S. tax rate in foreign jurisdictions.

Uncertain Tax Positions

As of September 30, 2018 and December 31, 2017, the Company had \$2,001 and \$1,682, respectively, of unrecognized tax benefits, including interest and penalties, which if recognized in the future, would lower the Company's annual effective income tax rate.

Accrued interest and penalties were \$598 and \$566 as of September 30, 2018 and December 31, 2017, respectively. Estimated interest and penalties are classified as part of the provision for income taxes in the Company's Condensed Consolidated Statement of Operations and totaled to a provision of \$42 and \$44 for the nine months ended September 30, 2018 and 2017, respectively.

In many cases, the Company's unrecognized tax benefits are related to tax years that remain subject to examination by the relevant tax authorities. Tax years with net operating losses ("NOLs") remain open until such losses expire or until the statutes of limitations for those years when the NOLs are used expire. As of September 30, 2018, the Company's open tax years, which remain subject to examination by the relevant tax authorities, were principally as follows:

	Year
Earliest tax years which remain subject to examination by the relevant tax authorities:	
U.S. Federal	2015
Majority of U.S. state and local jurisdictions	2013
Australia	2017
Belgium	2015
Canada	2014
Netherlands	2012
Switzerland	2013
United Kingdom	2017
Jurisdictions in Asia	2018

The Company believes that its tax reserves are adequate for all years that remain subject to examination or are currently under examination.

Based on information available as of September 30, 2018, it is reasonably possible that the total amount of unrecognized tax benefits could decrease in the range of \$0 to \$180 over the next 12 months as a result of projected resolutions of global tax examinations and controversies and potential expirations of the applicable statutes of limitations.

NOTE 8 – EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share is computed by dividing the Company's net income (loss) by the weighted average number of shares outstanding during the period. When the effects are not anti-dilutive, diluted earnings (loss) per share is computed by dividing the Company's net income (loss) by the weighted average number of shares outstanding and the impact of all dilutive potential common shares, primarily stock options "in-the-money", unvested restricted stock, and unvested restricted stock units. The dilutive impact of stock options, unvested restricted stock, and unvested restricted stock units is determined by applying the "treasury stock" method. Performance-based restricted stock awards are included in the computation of diluted earnings per share only to the extent that the underlying performance conditions: (i) are satisfied prior to the end of the reporting period; or (ii) would be satisfied if the end of the reporting period were the end of the related performance period and the result would be dilutive under the treasury stock method. Stock awards subject to vesting or exercisability based on the achievement of market conditions are included in the computation of diluted earnings per share only when the market conditions are met.

A reconciliation of the numerators and denominators of the basic and diluted earnings (loss) per share calculations for the three and nine months ended September 30, 2018 and 2017 were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,

Common stock equivalents: stock options and restricted stock units (a)	—	—	—	—
Weighted average number of common stock outstanding - diluted	33,101	32,151	32,746	32,120

- (a) The diluted weighted average number of shares of common stock outstanding did not differ from the basic weighted average number of shares of common stock outstanding because the effects of any potential common stock equivalents (see Note 6 for further details on outstanding stock options and unvested restricted stock units) were anti-dilutive and therefore not included in the calculation of the denominator of diluted earnings per share.

The weighted average number of shares outstanding used in the computation of diluted net income (loss) per share for the three and nine months ended September 30, 2018 and 2017 did not include the effect of the following potentially outstanding shares of common stock because the effect would have been anti-dilutive:

Restricted cash under the caption "Prepaid and other" primarily includes a bank guarantee for licensing in Switzerland. Restricted cash under the caption "Other assets" primarily include deposits held under a collateral trust agreement, which supports the Company's workers' compensation policy.

NOTE 10 – COMMITMENTS AND CONTINGENCIES

Consulting, Employment, and Non-compete Agreements

The Company has entered into various consulting and employment agreements with certain key members of management. These agreements generally (i) are one year in length, (ii) contain restrictive covenants, (iii) under certain circumstances, provide for compensation and, subject to providing the Company with a release, severance payments, and (iv) are automatically renewed annually unless either party gives sufficient notice of termination.

Litigation and Complaints

The Company is subject, from time to time, to various claims, lawsuits, contracts disputes, and other complaints from, for example, clients, candidates, suppliers, landlords for both leased and subleased properties, former and current employees, and regulators or tax authorities arising in the ordinary course of business. The Company routinely monitors claims such as these, and records provisions for losses when the claim becomes probable and the amount due is estimable. Although the outcome of these claims cannot be determined, the Company believes that the final resolution of these matters will not have a material adverse effect on the Company's financial condition, results of operations or liquidity.

For matters that have reached the threshold of probable and estimable, the Company has established reserves for legal, regulatory, and other contingent liabilities. The legal reserves are included under the caption "Other non-current liabilities" in the Condensed Consolidated Balance Sheets. The Company had no reserves as of September 30, 2018 and December 31, 2017, respectively.

Departure of Certain Employees

As previously disclosed on July 6, 2018, the Company and David F. Kirby, the Company's Senior Vice President, Treasury and Investor Relations, determined that Mr. Kirby would leave his positions with the Company effective July 27, 2018. In addition, the Company terminated the employment of its Corporate Counsel and Corporate Secretary effective June 29, 2018. As a result, during the three and nine months ended September 30, 2018 the Company recognized severance expense of \$0 and \$601 for the two corporate employees classified within salaries and related expense in the Company's Condensed Consolidated Statement of Operations.

As previously disclosed, on April 1, 2018, Stephen A. Nolan gave notice to the Company's Board of his resignation as Chief Executive Officer and a director of the Company effective as of April 1, 2018. On April 1, 2018, following the resignation of Mr. Nolan, the Board appointed Jeffrey E. Eberwein, the Chairman of the Board, as Chief Executive Officer, and Richard K. Coleman, Jr., a director of the Company, as the Chairman of the Board. As a result, during the three and nine months

NOTE 12 – STOCKHOLDERS' EQUITY

On July 30, 2015, the Company announced that its Board authorized the repurchase of up to \$10,000 of the Company's common stock. The Company intends to make purchases from time to time as market conditions warrant. This authorization does not expire. During the three and nine months ended September 30, 2018, the Company repurchased 0 and 2,200 shares on the open market for \$0 and \$3. As of September 30, 2018, under the July 30, 2015 authorization, the Company had repurchased 3,641,605 shares for a total cost of \$7,374.

NOTE 13 – SEGMENT AND GEOGRAPHIC DATA**Segment Reporting**

The Company operates in three reportable segments: the Hudson regional businesses of Hudson Americas, Hudson Asia Pacific, and Hudson Europe. Corporate expenses are reported separately from the three reportable segments and pertain to certain functions, such as executive management, corporate governance, human resources, accounting, administration, tax, and treasury. Segment information is presented in accordance with ASC 280, "Segments Reporting." This standard is based on a management approach that requires segmentation based upon the Company's internal organization and disclosure of revenue and certain expenses based upon internal accounting methods. The Company's financial reporting systems present various data for management to run the business, including internal profit and loss statements prepared on a basis not consistent with U.S. GAAP. Accounts receivable, net and long-lived assets are the only significant assets separated by segment for internal reporting purposes. The following information is presented net of discontinued operations. For more information see Note 5.

(a) SEC Regulation S-K Item 229.10(e)1(ii)(A) defines EBITDA as earnings before interest, taxes, depreciation and amortization. EBITDA is presented to provide additional information to investors about the Company's operations on a basis consistent with the measures that the Company uses to manage its operations and evaluate its performance. Management also uses this measurement to evaluate working capital requirements. EBITDA should not be considered in isolation or as a substitute for operating income and net income prepared in accordance with U.S. GAAP or as a measure of the Company's profitability.

NOTE 14 – SUBSEQUENT EVENTS

Stockholder Rights Plan

On October 15, 2018, the Company's Board declared a dividend to the Company's stockholders of record as of the close of business on October 25, 2018 (the "Record Date"), for each outstanding share of the Company's common stock, par value \$0.001 per share ("Common Stock"), of one right (a "Right") to purchase one one-hundredth of a share of a new series of participating preferred stock of the Company. The terms of the Rights are set forth in the Rights Agreement, dated as of October 15, 2018 (the "Rights Agreement"), by and between the Company and Computershare Trust Company, N.A., as rights agent.

The Board entered into the Rights Agreement in an effort to preserve the value of the Company's significant U.S. net operating loss carryforwards ("NOLs") and other tax benefits. The Company's ability to utilize its NOLs may be substantially limited if the Company experiences an "ownership change" within the meaning of Section 382 of the Internal Revenue Code of 1986, as amended (the "Code"). In general, an "ownership change" would occur if the percentage of the Company's ownership by one or more "5-percent shareholders" (as defined in the Code) increases by more than 50 percent over the lowest percentage owned by such stockholders at any time during the prior three years. The Rights Agreement is designed to preserve the Company's tax benefits by deterring transfers of Common Stock that could result in an "ownership change" under Section 382 of the Code.

The Rights Agreement replaces the Company's prior rights agreement designed to preserve the value of the Company's NOLs, which was approved by stockholders in 2015 and expired in accordance with its terms in January 2018. The Company also has a provision in its Amended and Restated Certificate of Incorporation (the "Charter Provision") which generally prohibits transfers of its common stock that could result in an ownership change. The Company believes that in light of the significant amount of the NOLs, it is advisable to adopt the Rights Agreement in addition to the Charter Provision. In

HUDSON GLOBAL, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

general terms, the Rights Agreement imposes a significant penalty upon any person or group that acquires beneficial ownership (as defined under the Rights Agreement) of 4.99% or more of the outstanding Common Stock without the prior approval of the Board (an "Acquiring Person"). Any Rights held by an Acquiring Person are void and may not be exercised. The Company intends to seek stockholder approval of the Rights Agreement at the Company's 2019 annual meeting of stockholders.

If the Rights become exercisable, each Right would allow its holder to purchase from the Company one one-hundredth of a share of the Company's Series B Junior Participating Preferred Stock ("Series B Preferred Stock") for a purchase price of \$3.50. Each fractional share of Series B Preferred Stock would give the stockholder approximately the same dividend, voting and liquidation rights as does one share of Common Stock. Prior to exercise, however, a Right does not give its holder any dividend, voting or liquidation rights.

The Rights will not be exercisable until the earlier of (i) 10 days after a public announcement by the Company that a person or group has become an Acquiring Person; and (ii) 10 business days (or a later date determined by the Board) after a person or group begins a tender or an exchange offer that, if completed, would result in that person or group becoming an Acquiring Person.

Until the date that the Rights become exercisable (the "Distribution Date"), Common Stock certificates will also evidence the Rights and will contain a notation to that effect. Any transfer of shares of Common Stock prior to the Distribution Date will constitute a transfer of the associated Rights. After the Distribution Date, the Rights will separate from the Common Stock and be evidenced by Right certificates, which the Company will mail to all holders of Rights that have not become void. After the Distribution Date, if a person or group already is or becomes an Acquiring Person, all holders of Rights, except the Acquiring Person, may exercise their Rights upon payment of the purchase price to purchase shares of Common Stock (or other securities or assets as determined by the Board) with a market value of two times the purchase price (a "Flip-in Event"). After the Distribution Date, if a Flip-in Event has already occurred and the Company is acquired in a merger or similar transaction, all holders of Rights, except the Acquiring Person, may exercise their Rights upon payment of the purchase price, to purchase shares of the acquiring or other appropriate entity with a market value of two times the purchase price of the Rights. Rights may be exercised to purchase Series B Preferred Stock only after the Distribution Date occurs and prior to the occurrence of a Flip-in Event as described above. A Distribution Date resulting from the commencement of a tender offer or an exchange offer as described in the second bullet point above could precede the occurrence of a Flip-in Event, in which case the Rights could be exercised to purchase Series B Preferred Stock. A Distribution Date resulting from any occurrence described in the first bullet point above would necessarily follow the occurrence of a Flip-in Event, in which case the Rights could be exercised to purchase shares of Common Stock (or other securities or assets) as described above.

The Rights Agreement grants discretion to the Board to designate a person as an "Exempt Person" or to designate a transaction involving Common Stock as an "Exempt Transaction." An "Exempt Person" cannot become an Acquiring Person under the Rights Agreement. The Board can revoke an "Exempt Person" designation if it subsequently makes a contrary determination regarding whether a transaction by such person may jeopardize the availability of the Company's tax benefits.

The Rights will expire on the earliest of (i) October 15, 2021, the third anniversary of the date on which the Board authorized and declared a dividend of the Rights, or such earlier date as of which the Board determines that the Rights Agreement is no longer necessary for the preservation of the Company's tax benefits, (ii) the time at which the Rights are redeemed, (iii) the time at which the Rights are exchanged, (iv) the effective time of the repeal of Section 382 of the Code if the Board determines that the Rights Agreement is no longer necessary for the preservation of the Company's tax benefits, (v) the first day of a taxable year to which the Board determines that no NOLs or other tax benefits may be carried forward, and (vi) the day following the certification of the voting results of the Company's 2019 annual meeting of stockholders, if stockholder ratification of the adoption of the Rights Agreement has not been obtained prior to that date.

The Board may redeem all (but not less than all) of the Rights for a redemption price of \$0.001 per Right at any time before the later of the Distribution Date and the date of the first public announcement or disclosure by the Company that a person or group has become an Acquiring Person. Once the Rights are redeemed, the right to exercise the Rights will terminate, and the only right of the holders of such Rights will be to receive the redemption price. The redemption price will be adjusted if the Company declares a stock split or issues a stock dividend on Common Stock. After the later of the Distribution Date and the date of the first public announcement by the Company that a person or group has become an Acquiring Person, but before an Acquiring Person owns 50% or more of the outstanding Common Stock, the Board may exchange each Right (other than Rights that have become void) for one share of Common Stock or an equivalent security.

The Board may adjust the purchase price of the Series B Preferred Stock, the number of shares of Series B Preferred Stock issuable and the number of outstanding Rights to prevent dilution that may occur as a result of certain events, including,

HUDSON GLOBAL, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(in thousands, except share and per share amounts)
(unaudited)

among others, a stock dividend, a stock split or a reclassification of the Series B Preferred Stock or Common Stock. No adjustments to the purchase price of less than one percent will be made.

Before the time the Rights cease to be redeemable, the Board may amend or supplement the Rights Agreement without the consent of the holders of the Rights, except that no amendment may decrease the redemption price below \$0.001 per Right. At any time thereafter, the Board may amend or supplement the Rights Agreement to cure an ambiguity, to alter time period provisions, to correct inconsistent provisions or to make any additional changes to the Rights Agreement, but only to the extent that those changes do not impair or adversely affect the interests of the holders of Rights and do not result in the Rights again becoming redeemable. The limitations on the Board's ability to amend the Rights Agreement does not affect the Board's power or ability to take any other action that is consistent with its fiduciary duties, including, without limitation, accelerating or extending the expiration date of the Rights, or making any amendment to the Rights Agreement that is permitted by the Rights Agreement or adopting a new rights agreement with such terms as the Board determines in its sole discretion to be appropriate.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") should be read in conjunction with the Condensed Consolidated Financial Statements and the notes thereto, included in Part 1 of this Form 10-Q. The reader should also refer to the Condensed Consolidated Financial Statements and notes of Hudson Global, Inc. and its subsidiaries (the "Company") filed in its Annual Report on Form 10-K for the year ended December 31, 2017. This MD&A contains forward-looking statements. Please see "FORWARD-LOOKING STATEMENTS" for a discussion of the uncertainties, risks and assumptions associated with these statements. This MD&A also uses the non-generally accepted accounting principle measure of earnings before interest, taxes, depreciation and amortization ("EBITDA"). See Note 13 to the Condensed Consolidated Financial Statements of this Form 10-Q for EBITDA segment reconciliation information. The tables and information in this MD&A were derived from exact numbers and may have immaterial rounding differences.

This MD&A includes the following sections:

- Executive Overview
- Results of Operations
- Liquidity and Capital Resources
- Contingencies
- Recent Accounting Pronouncements
- Critical Accounting Policies
- Forward-Looking Statements

Executive Overview

On March 31, 2018, the Company completed the sale of its recruitment and talent management ("RTM") businesses in Belgium, Europe (excluding Belgium), and Asia Pacific ("APAC") in separate transactions to Value Plus NV, Morgan Philips Group S.A., and Apache Group Holdings Pty Limited, respectively. The proceeds from the sale were \$39.0 million, or \$27.9 million net of cash and restricted cash sold of \$9.5 million, and transaction costs of \$1.6 million. Debt assumed in the Sales Transactions by the buyers was \$17.6 million.

The finalization of these transactions aligns the Company's strategy to focus going forward on Recruitment Process Outsourcing ("RPO") solutions globally. With direct operations in nine countries and relationships with specialized professionals and organizations around the globe, the Company brings a strong ability to match talent with opportunities by assessing, recruiting, developing, and engaging the best and brightest people for the Company's clients. The Company combines broad geographic presence, world-class talent solutions and a tailored, consultative approach to help businesses, and professionals achieve maximum performance. The Company's focus is to continually upgrade its service offerings and delivery capability tools to make candidates more successful in achieving its clients' business requirements.

The Company's proprietary frameworks, assessment tools and leadership development programs, coupled with its broad geographic footprint allows the Company to design and implement regional and global outsourced recruitment solutions that the Company believes greatly enhance the quality and efficiency of its clients' hiring.

To accelerate the implementation of the Company's strategy, the Company engaged in the following initiatives:

- Facilitating growth and development of the global RPO business through strategic investments in people, innovation and technology.
- Building and differentiating the Company's brand through its unique outsourcing solutions offerings.
- Improving the Company's cost structure and efficiency of its support functions and infrastructure.

This MD&A discusses the results of the Company's RPO businesses for three and nine months ended September 30, 2018 and 2017, and excludes the results of the Company's RTM businesses, which, as discussed in Note 5 to the Condensed Consolidated Financial Statements are reported in discontinued operations.

Current Market Conditions

Economic conditions in most of the world's major markets have improved since 2017. In the U.K., the 2016 referendum to exit the European Union (commonly referred to as "Brexit") adversely impacted global markets initially, including currencies, and resulted in increased volatility in the value of the British pound as compared to the U.S. dollar. A weaker British pound compared to the U.S. dollar during a reporting period causes local currency results of the Company's U.K. operations to be translated into fewer U.S. dollars. The Company's U.K. operations, future financial performance, and translation of results may be affected, in part, by the outcome of tariff, trade, regulatory, and other negotiations as the U.K. negotiates its exit from the European Union.

The Company closely monitors the economic environment and business climate in its markets and responds accordingly. At this time, the Company is unable to accurately predict the outcome of these events or changes in general economic and political conditions and their effect on the demand for the Company's services.

Financial Performance

The Company achieved mixed financial performance for the third quarter of 2018 in the markets in which it operates. On a constant currency basis, for the three months ended September 30, 2018, revenue increased by \$1.8 million, or 11.6%, and gross profit remained flat, compared to the same period in 2017.

The changes in revenue were driven by strong results in Asia Pacific and Europe partially offset by a decline in the Americas.

The following is a summary of the highlights for the three and nine months ended September 30, 2018 and 2017. This summary should be considered in the context of the additional disclosures in this MD&A which further highlight the results by segment.

- Revenue was \$17.1 million for the three months ended September 30, 2018, compared to \$15.9 million for the same period in 2017, an increase of \$1.2 million, or 7.7%.
 - On a constant currency basis, the Company's revenue increased \$1.8 million, or 11.6%, due to an increase of \$1.6 million in RPO contracting revenue (up 36.1% compared to the same period in 2017) and \$0.2 million in RPO recruitment revenue (up 9.5% compared to the same period in 2017).
- Revenue was \$50.4 million for the nine months ended September 30, 2018, compared to \$44.4 million for the same period in 2017, an increase of \$6.0 million, or 13.5%.
 - On a constant currency basis, the Company's revenue increased \$5.6 million, or 12.5%, due to an increase of \$3.7 million in RPO contracting revenue (up 30.6% compared to the same period in 2017) and \$1.8 million in RPO recruitment revenue (up 33.1% compared to the same period in 2017).
- Gross profit was \$10.9 million for the three months ended September 30, 2018, compared to \$11.2 million for the same period in 2017, a decrease of \$0.3 million, or 2.6%.
 - On a constant currency basis, gross profit remained flat due to a decrease of \$0.1 million in RPO recruitment gross profit partially offset by an increase of \$0.1 million in RPO contracting gross profit (up 27.0% compared to the same period in 2017).
- Gross profit was \$31.8 million for the nine months ended September 30, 2018, compared to \$31.9 million for the same period in 2017, a decrease of \$0.0 million, or 0.1%.
 - On a constant currency basis, gross profit decreased \$0.4 million, or 1.1%, mainly due to a decrease of \$0.8 million in RPO recruitment gross profit (down 2.4% compared to the same period in 2017) partially offset by an increase of \$0.4 million in RPO contracting gross profit (up 33.6% compared to the same period in 2017).
- Selling, general and administrative expenses and other non-operating income (expense) ("SG&A and Non-Op") were \$11.7 million for the three months ended September 30, 2018, compared to \$11.1 million for the same period in 2017, an increase of \$0.6 million, or 5.2%.
 - On a constant currency basis, SG&A and Non-Op increased \$0.8 million, or 7.5%. SG&A and Non-Op, as a percentage of revenue, were 68.3% for the three months ended September 30, 2018, compared to 70.9% for the same period in 2017.

- SG&A and Non-Op were \$36.7 million for the nine months ended September 30, 2018, compared to \$32.6 million for the same period in 2017, an increase of \$4.1 million, or 12.5%.
 - On a constant currency basis, SG&A and Non-Op increased \$3.8 million, or 11.4%. SG&A and Non-Op, as a percentage of revenue, were 72.8% for the nine months ended September 30, 2018, compared to 73.5% for the same period in 2017. The increase is principally due to additional compensation expense for the Company's former Chief Executive Officer and two additional Executives (see Note 10).
- There was no business reorganization for the three months ended September 30, 2018 and 2017.
- Business reorganization was \$0.0 million for the nine months ended September 30, 2018, compared to a credit of \$0.1 million for the same period in 2017.
- EBITDA loss was \$0.8 million for the three months ended September 30, 2018, compared to EBITDA of \$0.1 million for the same period in 2017, an increase in EBITDA loss of \$0.9 million. On a constant currency basis, EBITDA loss increased \$0.8 million.
- EBITDA loss was \$4.8 million for the nine months ended September 30, 2018, compared to EBITDA loss of \$0.6 million for the same period in 2017, an increase in EBITDA loss of \$4.2 million. On a constant currency basis, EBITDA loss increased \$4.2 million.
- Net loss was \$0.9 million for the three months ended September 30, 2018, compared to net loss of \$0.8 million for the same period in 2017, an increase in net loss of \$0.1 million. On a constant currency basis, net loss decreased \$0.1 million.
- Net income was \$8.5 million for the nine months ended September 30, 2018, compared to net loss of \$0.9 million for the same period in 2017, an increase in net income of \$9.4 million. On a constant currency basis, net income increased \$9.5 million.

Constant Currency

The Company operates on a global basis, with the majority of its gross profit generated outside of the U.S. Accordingly, fluctuations in foreign currency exchange rates can affect the Company's results of operations. For the discussion of reportable segment results of operations, the Company uses constant currency information. Constant currency compares financial results between periods as if exchange rates had remained constant period-over-period. The Company defines the term "constant currency" to mean that financial data for a previously reported period are translated into U.S. dollars using the same foreign currency exchange rates that were used to translate financial data for the current period. The Company's management reviews and analyzes business results in constant currency and believes these results better represent the Company's underlying business trends. Changes in foreign currency exchange rates generally impact only reported earnings.

Changes in revenue, gross profit, SG&A and Non-Op, business reorganization, operating income (loss), net income (loss), and EBITDA (loss) from continuing operations include the effect of changes in foreign currency exchange rates. The tables below summarize the impact of foreign currency exchange adjustments on the Company's operating results for the three and nine months ended September 30, 2018 and 2017.

(a) SG&A and Non-Op is a measure that management uses to evaluate the segments' expenses, which include the following captions on the Condensed Consolidated Statement of Operations: Salaries and related, other selling, general and administrative, and other income (expense), net. Corporate management service allocations are included in the segments' other income (expense).

(b) See EBITDA reconciliation in the following section.

Use of EBITDA (Non-GAAP measure)

Management believes EBITDA is a meaningful indicator of the Company's performance that provides useful information to investors regarding the Company's financial condition and results of operations. Management also considers EBITDA to be the best indicator of operating performance and most comparable measure across the regions in which the Company operates. Management also uses this measure to evaluate capital needs and working capital requirements. EBITDA should not be considered in isolation or as a substitute for operating income, or net income prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") or as a measure of the Company's profitability. EBITDA is derived from net income (loss) adjusted for the provision for (benefit from) income taxes, interest expense (income), and depreciation and amortization.

The reconciliation of EBITDA to the most directly comparable GAAP financial measure is provided in the table below:

For the three months ended September 30, 2018, RPO recruitment revenue decreased by \$0.8 million, or 21.7%, partially offset by an increase in RPO contracting revenue of \$0.3 million, or 117.6%. The decrease in RPO recruitment revenue was due to the loss of a global contract in September 2017 and lower demand from other clients partially offset by new business.

For the nine months ended September 30, 2018, RPO recruitment revenue decreased \$2.5 million, or 21.6%, as compared to the same period in 2017, partially offset by an increase in RPO contracting revenue of \$0.7 million, or 76.5%. The decrease in RPO recruitment revenue was due to the same factors noted above.

For the three months ended September 30, 2018, RPO recruitment gross profit decreased \$0.8 million, or 22.1%, partially offset by an increase in RPO contracting of \$0.1 million, as compared to the same period in 2017. The decline in RPO recruitment gross profit was due to the same factors noted above for revenue.

For the nine months ended September 30, 2018, RPO recruitment gross profit decreased \$2.4 million, or 21.7%, partially offset by an increase in RPO contracting of \$0.2 million as compared to the same period in 2017. The decline in RPO recruitment gross profit was due to the same factors noted above for revenue.

For the three months ended September 30, 2018, total gross profit as a percentage of revenue was 83.3%, as compared to 90.7% for the same period in 2017. For the nine months ended September 30, 2018, total gross profit as a percentage of revenue was 83.7%, as compared to 89.8% for the same period in 2017. The decrease in total gross profit as a percentage of revenue was attributed to the lower mix of RPO recruitment to RPO contracting gross profit in 2018 as compared to 2017.

The increase in the U.K. was driven by an increase in RPO recruitment gross profit of \$0.5 million, or 28.7%, as compared to the same period in 2017.

In Continental Europe, for the three months ended September 30, 2018, total gross profit decreased \$0.6 million, or 94.5%, as compared to the same period in 2017. The decline was due to the same factor noted above.

For the nine months ended September 30, 2018, RPO recruitment gross profit decreased by \$0.6 million, or 8.8%, as compared to the same period in 2017.

In the U.K., total gross profit for the nine months ended September 30, 2018 increased \$1.3 million, or 26.6%, as compared to the same period in 2017. The change in the U.K. was driven by an increase in RPO recruitment of \$1.2 million, or 25.8%, as compared to the same period in 2017.

In Continental Europe, for the nine months ended September 30, 2018, total gross profit decreased \$1.8 million, or 87.3%, as compared to the same period in 2017. The decline was due to the same factor noted above.

SG&A and Non-Op

SG&A and Non-Op as a percentage of revenue	56.2%	52.2%	N/A	N/A	55.5%	53.4%	N/A	N/A

For the three months ended September 30, 2018, SG&A and Non-Op increased \$0.4 million, or 21.5%, as compared to the same period in 2017. The increase in SG&A and Non-Op was a result of an increase in support costs partially due to the reclassification of prior year allocated support costs to discontinued operations.

For the nine months ended September 30, 2018, SG&A and Non-Op increased \$0.6 million, or 9.3%, as compared to the same period in 2017. The increase in SG&A and Non-Op was due to the same factor noted above.

For the three months ended September 30, 2018, SG&A and Non-Op, as a percentage of revenue, was 56.2%, as compared to 52.2% for the same period in 2017. For the nine months ended September 30, 2018, SG&A and Non-Op, as a percentage of revenue, was 55.5%, as compared to 53.4% for the same period in 2017. The increase in SG&A and Non-Op, as a percentage of revenue, for the three and nine months ended September 30, 2018 was primarily due to the same factor noted above.

Operating Income and EBITDA

\$ in millions	Three Months Ended September 30,				Nine Months Ended September 30,			
	2018	2017	Change in amount	Change in %	2018	2017	Change in amount	Change in %

EBITDA (loss) as a percentage of revenue	(5.3)%	7.8%	N/A	N/A	(1.5)%	7.9%	N/A	N/A

For the three months ended September 30, 2018, EBITDA loss was \$0.2 million, or 5.3% of revenue, as compared to EBITDA of \$0.3 million, or 7.8% of revenue, for the same period in 2017. The decrease in EBITDA of \$0.5 million for the three months ended September 30, 2018, as compared to the same period in 2017, was principally due to the decline in gross profit and increase in SG&A and Non-op.

For the nine months ended September 30, 2018, EBITDA loss was \$0.2 million, or 1.5% of revenue, as compared to EBITDA of \$0.9 million, or 7.9% of revenue, for the same period in 2017. The decrease in EBITDA for the nine months ended September 30, 2018, as compared to the same period in 2017, was principally due to the same factors noted above.

For the three months ended September 30, 2018, operating loss was \$0.1 million, as compared to operating income of \$0.4 million for the same period in 2017. For the nine months ended September 30, 2018 and 2017, operating income was \$0.2 million and \$1.1 million, respectively. The differences between operating income and EBITDA for the three and nine months ended September 30, 2018 and 2017 were principally due to corporate management fees, foreign currency gains and losses, and depreciation.

The following are discussed in reported currency.***Corporate Expenses, Net of Corporate Management Fee Allocations***

Corporate expenses were \$1.1 million for the three months ended September 30, 2018, as compared to \$2.1 million for the same period in 2017, a decrease of \$1.0 million. The decrease for the three months ended September 30, 2018, was primarily due to a decrease in staff costs and professional fees and an increase in corporate allocations.

For the nine months ended September 30, 2018, corporate expenses were \$6.5 million as compared to \$5.8 million for the same period in 2017, an increase of \$0.7 million. The increase for the nine months ended September 30, 2018 was primarily a result of additional compensation expense of \$2.6 million due to severance expense recorded for three corporate executives (see Note 10).

Depreciation and Amortization Expense

Depreciation and amortization expense was \$0.0 million for the three months ended September 30, 2018, as compared to \$0.1 million for the same period in 2017, a decrease of \$0.1 million, or 97.5%. For the nine months ended September 30, 2018, depreciation and amortization expense was \$0.0 million, as compared to \$0.2 million for the same period in 2017, a decrease of \$0.2 million, or 98.7%. The decrease was due to the lower level of capital expenditures incurred by the Company in recent years.

Interest Income

Interest income was \$0.1 million for the three months ended September 30, 2018, as compared to \$0.0 million for the same period in 2017. For the nine months ended September 30, 2018, interest income was \$0.2 million as compared to \$0.0 million for the same period in 2017.

Provision for (Benefit from) Income Taxes

The provision for income taxes for the nine months ended September 30, 2018 was \$0.4 million on \$4.7 million of pre-tax loss from continuing operations, as compared to a provision for income tax of \$0.9 million on \$0.8 million of pre-tax loss from continuing operations for the same period in 2017. The effective tax rate for the nine months ended September 30, 2018 and 2017 were negative 8.4% and 101.0%, respectively. For the nine months ended September 30, 2018, the effective tax rate differed from the U.S. Federal statutory rate of 21% primarily due to the inability of the Company to recognize tax benefits on certain losses until positive earnings are achieved in the U.S. and certain other foreign jurisdictions, non-deductible expenses, and variations from the U.S. tax rate in foreign jurisdictions. For the nine months ended September 30, 2017, the effective tax rate differed from the U.S. Federal statutory rate of 35% primarily due to the inability of the Company to recognize tax benefits on certain losses until positive earnings are achieved in the U.S. and certain other foreign jurisdictions, non-deductible expenses, and variations from the U.S. tax rate in foreign jurisdictions.

Net Income (Loss)

Net loss remained flat at \$0.9 million for the three months ended September 30, 2018 and 2017. Basic and diluted loss per share were \$0.03 for the three months ended September 30, 2018, as compared to basic and diluted loss per share of \$0.03 for the same period in 2017.

Net income was \$8.5 million for the nine months ended September 30, 2018, as compared to net loss of \$0.9 million for the same period in 2017, an increase in net income of \$9.4 million. Basic and diluted income per share were \$0.26 for the nine months ended September 30, 2018, as compared to basic and diluted loss per share of \$0.03 for the same period in 2017.

Liquidity and Capital Resources

As of September 30, 2018, cash and cash equivalents totaled \$38.4 million, as compared to \$5.6 million as of December 31, 2017. The following table summarizes the Company's cash flow activities for the nine months ended September 30, 2018 and 2017:

\$ in millions	For the Nine Months Ended September 30,	
	2018	2017
Net cash provided by (used in) operating activities	\$ (18.3)	\$ (3.7)
Net cash provided by (used in) investing activities	27.6	(0.7)
Net cash provided by (used in) financing activities	7.4	(1.3)
Effect of exchange rates on cash, cash equivalents, and restricted cash	0.2	1.0
Net increase (decrease) in cash, cash equivalents, and restricted cash	<u>\$ 16.9</u>	<u>\$ (4.7)</u>

Cash Flows from Operating Activities

For the nine months ended September 30, 2018, net cash used in operating activities was \$18.3 million, as compared to \$3.7 million net cash used in operating activities for the same period in 2017, an increase in net cash used in operating activities of \$14.6 million. The increase in net cash used in operating activities resulted principally from higher accrued bonus compensation in 2017 paid out in 2018 and transaction costs for the divestiture of the RTM businesses.

Cash Flows from Investing Activities

For the nine months ended September 30, 2018, net cash provided by investing activities was \$27.6 million, as compared to \$0.7 million of net cash used in investing activities for the same period in 2017, an increase in net cash provided by investing activities of \$28.3 million. The increase in net cash provided by investing activities was due to the sale of the RTM businesses.

Cash Flows from Financing Activities

For the nine months ended September 30, 2018, net cash provided by financing activities was \$7.4 million, as compared to net cash used in financing activities of \$1.3 million for the same period in 2017, an increase in net cash provided by financing activities of \$8.7 million. The increase in net cash provided by financing activities was primarily attributable to an increase in net borrowings by subsidiaries prior to disposal of the RTM businesses.

Liquidity Outlook

As of September 30, 2018, the Company had cash and cash equivalents on hand of \$38.4 million, we had no long-term debt obligations, no capital lease obligations, or other similar long-term liabilities. We have no financial guarantees, debt or lease agreements or other arrangements that could trigger a requirement for an early payment or that could change the value of our assets. The Company believes that it has sufficient liquidity to satisfy its needs through at least the next 12 months, based on the Company's total liquidity as of September 30, 2018. The Company's near-term cash requirements during 2018 are primarily related to funding operations. For the full year 2018, the Company expects to make capital expenditures of less than \$1.0 million.

As of September 30, 2018, \$31.5 million of the Company's cash and cash equivalents noted above were held in the U.S. and the remainder were held outside the U.S., primarily in Australia (\$2.4 million), Switzerland (\$1.3 million), Belgium (\$1.0 million), the U.K (\$0.9 million), the Netherlands (\$0.7 million) and Singapore (\$0.5 million). The majority of the Company's offshore cash is available to it as a source of funds, net of any tax obligations or assessments.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

Contingencies

From time to time in the ordinary course of business, the Company is subject to compliance audits by federal, state, local, and foreign government regulatory, tax, and other authorities relating to a variety of regulations, including wage and hour laws, unemployment taxes, workers' compensation, immigration, and income, value-added, and sales taxes. The Company is also subject to, from time to time in the ordinary course of business, various claims, lawsuits, and other complaints from, for example, clients, candidates, suppliers, landlords for both leased and subleased properties, former and current employees, and regulators or tax authorities. Periodic events and management actions such as business reorganization initiatives can change the number and type of audits, claims, lawsuits, contract disputes, or complaints asserted against the Company. Events can also change the likelihood of assertion and the behavior of third parties to reach resolution regarding such matters.

The economic circumstances in the recent past have given rise to many news reports and bulletins from clients, tax authorities, and other parties about changes in their procedures for audits, payment, plans to challenge existing contracts, and other such matters aimed at being more aggressive in the resolution of such matters in their own favor. The Company believes that it has appropriate procedures in place for identifying and communicating any matters of this type, whether asserted or likely to be asserted, and it evaluates its liabilities in light of the prevailing circumstances. Changes in the behavior of third parties could cause the Company to change its view of the likelihood of a claim and what might constitute a trend. Employment laws vary in the markets in which we operate, and in some cases, employees and former employees have extended periods during which they may bring claims against the Company.

For matters that have reached the threshold of probable and estimable, the Company has established reserves for legal, regulatory, and other contingent liabilities. The Company's reserves were \$0.0 million as of September 30, 2018 and December 31, 2017, respectively. Although the outcome of these matters cannot be determined, the Company believes that none of the currently pending matters, individually or in the aggregate, will have a material adverse effect on the Company's financial condition, results of operations or liquidity.

Recent Accounting Pronouncements

See Note 3 to the Condensed Consolidated Financial Statements included in Part I of this Form 10-Q for a full description of relevant recent accounting pronouncements, including the respective expected dates of adoption.

Critical Accounting Policies

See "Critical Accounting Policies" under Item 7 of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017 filed with the SEC on March 1, 2018 and incorporated by reference herein. There were no changes to the Company's critical accounting policies during the three months ended September 30, 2018.

Effective January 1, 2018, we adopted Topic 606, which requires judgment in estimating the transaction price for revenue from contracts with customers. We have reached conclusions on key accounting assessments and estimates related to the impact of the new standard, which are described in Note 4 - "Revenue Recognition" in the Notes to the Condensed Consolidated Financial Statements, included in Part I. Financial Statements of this Form 10-Q.

FORWARD-LOOKING STATEMENTS

This Form 10-Q contains statements that the Company believes to be "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact included in this Form 10-Q, including statements regarding the Company's future financial condition, results of operations, business operations and business prospects, are forward-looking statements. Words such as "anticipate," "estimate," "expect," "project," "intend," "plan," "predict," "believe," and similar words, expressions, and variations of these words and expressions are intended to identify forward-looking statements. All forward-looking statements are subject to important factors, risks, uncertainties, and assumptions, including industry and economic conditions that could cause actual results to differ materially from those described in the forward-looking statements. Such factors, risks, uncertainties, and assumptions include, but are not limited to, (1) the Company's ability to operate successfully as a company focused on its RPO business, (2) global economic fluctuations, (3) the Company's ability to successfully execute its strategic initiatives, (4) risks related to fluctuations in the Company's operating results from quarter to quarter, (5) the ability of clients' to terminate their relationship with the Company

at any time, (6) competition in the Company's markets, (7) the negative cash flows and operating losses that may recur in the future, (8) risks associated with the Company's investment strategy, (9) risks related to international operations, including foreign currency fluctuations, (10) the Company's dependence on key management personnel, (11) the Company's ability to attract and retain highly-skilled professionals, (12) the Company's ability to collect its accounts receivable, (13) the Company's ability to maintain costs at an acceptable level, (14) the Company's heavy reliance on information systems and the impact of potentially losing or failing to develop technology, (15) risks related to providing uninterrupted service to clients, (16) the Company's exposure to employment-related claims from clients, employers, and regulatory authorities, current and former employees in connection with the Company's business reorganization initiatives, and limits on related insurance coverage, (17) the Company's ability to utilize net operating loss carry-forwards, (18) volatility of the Company's stock price, (19) the impact of government regulations, (20) restrictions imposed by blocking arrangements, (21) risks related to potential acquisitions or dispositions of businesses by the Company, and (22) those risks set forth in "Risk Factors." The foregoing list should not be construed to be exhaustive. Actual results could differ materially from the forward-looking statements contained in this Form 10-Q. In view of these uncertainties, you should not place undue reliance on any forward-looking statements, which are based on our current expectations. These forward-looking statements speak only as of the date of this Form 10-Q. The Company assumes no obligation, and expressly disclaims any obligation, to update any forward-looking statements, whether as a result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company conducts operations in various countries and faces both translation and transaction risks related to foreign currency exchange. For the nine months ended September 30, 2018, the Company earned approximately 74% of its gross profit from continuing operations outside the U.S., and it collected payments in local currency, and paid related operating expenses in such corresponding local currency. Revenues and expenses in foreign currencies translate into higher or lower revenues and expenses in U.S. dollars as the U.S. dollar weakens or strengthens against other currencies. Therefore, changes in exchange rates may affect our consolidated revenues and expenses (as expressed in U.S. dollars) from foreign operations.

Amounts invested in our foreign operations are translated into U.S. dollars at the exchange rates in effect at the balance sheet date. The resulting translation adjustments are recorded as a component of accumulated other comprehensive income in the stockholders' equity section of the Condensed Consolidated Balance Sheets. The translation of foreign currency into U.S. dollars is reflected as a component of stockholders' equity and does not impact our reported net income (loss).

The Brexit referendum resulted in a decline in the value of the British pound, as compared to the U.S. dollar. The Company's U.K. operations, future financial performance, and translation of results may be affected, in part, by the outcome of tariff, trade, regulatory, and other negotiations as the U.K. negotiates its exit from the European Union.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has conducted an evaluation of the design and operation of the Company's disclosure controls and procedures, as such term is defined under Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of September 30, 2018.

Changes in internal control over financial reporting

There were no changes in the Company's internal control over financial reporting that occurred during the nine months ended September 30, 2018 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS**

The Company is involved in various legal proceedings that are incidental to the conduct of its business. The Company is not involved in any pending legal proceeding that it believes would reasonably be expected to have a material adverse effect on its financial condition or results of operations.

ITEM 1A. RISK FACTORS

As of September 30, 2018, there have not been any material changes to the information set forth in Item 1A. "Risk Factors" disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table summarizes purchases of common stock by the Company during the quarter ended September 30, 2018.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (a)

Total	8,452	\$ 1.72	—	\$ 2,625,345

- (a) On July 30, 2015, the Company announced that its Board authorized the repurchase of up to \$10.0 million of the Company's common stock. The authorization does not expire. See Note 12 for further details. As of September 30, 2018, the Company had repurchased 3,641,605 shares for a total cost of approximately \$7.4 million under this authorization. From time to time, the Company may enter into a Rule 10b5-1 trading plan for purposes of repurchasing common stock under this authorization.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent function):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
