NOTE 1 – BASIS OF PRESENTATION

These interim unaudited condensed consolidated financial statements have been prepared in accordance with United States of America ("U.S.") generally accepted accounting principles ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X of the United States Securities and Exchange Commission ("SEC") for interim financial reporting, and should be read in conjunction with the consolidated financial statements and related notes of Hudson Global, Inc. and its subsidiaries (the "Company") filed in its Annual Report on Form 10-K for the year ended December 31, 2016.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of operating revenues and expenses. These estimates are based on management's knowledge and judgments. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the Company's financial position, results of operations and cash flows at the dates and for the periods presented have been included. The results of operations for interim periods are not necessarily indicative of the results of operations for the full year. The Condensed Consolidated Financial Statements include the accounts of the Company and all of its wholly-owned and majority-owned subsidiaries. All significant intra-entity balances and transactions between and among the Company and its subsidiaries have been eliminated in consolidated financial statements.

NOTE 3 – RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In May 2017, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") No. 2017-09, "*Compensation - Stock Compensation: Scope of Modification Accounting,*" which provides guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting. An entity will account for the effects of a modification unless the fair value of the modified award is the same as the original award, the vesting conditions of the modified award are the same as the original award and the classification of the modified award as an equity instrument or liability instrument is the same as the original award. ASU 2017-09 is effective for all annual periods, and interim periods within those annual periods, beginning after December 15, 2017, with early adoption permitted. The Company is currently evaluating the effect of this update but does not believe it will have a material impact on its financial statements and related disclosures.

In January 2017, the FASB issued ASU 2017-04, "*Intangibles-Goodwill and Other (Topic 350) Simplifying the Test for Goodwill Impairment.*" ASU 2017-04 eliminates the previous two-step process that required identification of potential impairment and a separate measure of the actual impairment. The annual assessment of goodwill impairment will be determined by using the difference between the carrying amount and the fair value of the reporting unit. ASU 2017-04 is effective for fiscal years beginning after December 15, 2019, including interim periods within that reporting period. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company is currently evaluating the effect of this update but does not believe it will have a material impact on its consolidated financial statements.

In November 2016, the FASB issued ASU No. 2016-18, "*Statement of Cash Flows (Topic 230): Restricted Cash" ("ASU 2016-18")*, which requires the inclusion of restricted cash with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. ASU 2016-18 is effective for public business entities for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company is currently evaluating the effect of this update but does not believe it will have a material impact on its consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-15, "*Statement of Cash Flows (Topic 230) - Classification of Certain Cash Receipts and Cash Payments*" ("*ASU 2016-15*"), which provides clarification on how companies present and classify certain cash receipts and cash payments in the statement of cash flows. ASU 2016-15 will be effective for fiscal years beginning after December 15, 2017 and interim periods within those fiscal years. Early adoption is permitted. An entity that elects early adoption must adopt all of the amendments in the same period. The Company is currently evaluating the impact to its consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, "*Leases (Topic 842*)" ("*ASU 2016-02*"), which amends the existing standards for lease accounting. This new standard requires the recognition of lease assets and lease liabilities on the balance sheet and the disclosure of key information about leasing arrangements including the amounts, timing, and uncertainty of cash flows arising from leases. ASU 2016-02 will be effective for the Company on January 1, 2019 and will require modified retrospective application as of the beginning of the earliest year presented in the financial statements. Early adoption is permitted. The Company is currently evaluating the impact to its consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)." ASU 2014-09 is a comprehensive new revenue recognition model that requires a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. ASU 2014-09 also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. In July 2015, the FASB amended the effective date of ASU 2014-09 to fiscal years beginning after December 15, 2017 and early adoption is permitted only for fiscal years beginning after December 15, 2016. In March, April and May 2016, the FASB issued ASU 2016-08 "Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)," ASU 2016-10 "Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing," and ASU 2016-12 "Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing," and ASU 2016-12 "Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients" which provide further clarifications to be considered when implementing ASU 2014-09. The two permitted transition methods under the new standard are the full retrospective method, in which case the standard would be applied to each prior reporting period presented, or the modified retrospective method, in which case the cumulative effect of applying the standard would be recognized at the date of initial application. We are evaluating the impact of this ASU as it relates to our revenue streams, as well as certain associated expenses. In the third quarter we have made progress in evaluating the impact of this ASU. Based on our assess

- 7 -

not yet been completed), we do not expect our adoption of the standard to have a material impact to our revenue and net income. During the fourth quarter of 2017, we will complete our assessment and implementation process prior to the adoption of ASU 2014-09 on January 1, 2018. We expect to adopt the guidance using the modified retrospective approach.

There are no other recently issued accounting pronouncements that have had, or that the Company believes will have, a material impact on the Company's consolidated financial statements.

The ISAP permits the granting of stock options, restricted stock, restricted stock units, and other types of equity-based awards. The Compensation Committee of the Company's Board of Directors (the "Compensation Committee") will establish such conditions as it deems appropriate on the granting or vesting of stock options, restricted stock, restricted stock units and other types of equity-based awards. As determined by the Compensation Committee, equity awards also may be subject to immediate vesting upon the occurrence of certain events following a change in control of the Company. The Company primarily grants restricted stock and restricted stock units to its employees. A restricted stock unit is equivalent to one share of the Company's common stock and is payable only in common stock of the Company issued under the ISAP.

The Compensation Committee administers the ISAP and may designate any of the following as a participant under the ISAP: any officer or other employee of the Company or its affiliates or individuals engaged to become an officer or employee; consultants or other independent contractors who provide services to the Company or its affiliates; and non-employee directors of the Company. On May 24, 2016, the Company's stockholders approved an amendment and restatement of the ISAP to, among other things, increase the number of shares of the Company's common stock that are reserved for issuance by 2,400,000 shares. As of September 30, 2017, there were 1,814,807 shares of the Company's common stock available for future issuance under the ISAP.

A summary of the quantity and vesting conditions for stock-based units granted to the Company's employees for the nine months ended September 30, 2017 was as follows:

	Number of Restricted
Vesting conditions	Stock Units Granted
Performance and service conditions (1) (2)	990,000

(1) The performance conditions with respect to restricted stock units may be satisfied as follows:

- (a) For employees from the Americas, Asia Pacific and Europe 80% of the restricted stock units may be earned on the basis of performance as measured by a "regional adjusted EBITDA," and 20% of the restricted stock units may be earned on the basis of performance as measured by a "group adjusted EBITDA"; and
- (b) For employees from the Corporate office 100% of the restricted stock units may be earned on the basis of performance as measured by a "group adjusted EBITDA."
- (2) To the extent restricted stock units are earned on the basis of performance, such restricted stock units will vest on the basis of service as follows:
 - (a) 33% of the restricted stock units will vest on the first anniversary of the grant date;
 - (b) 33% of the restricted stock units will vest on the second anniversary of the grant date; and
 - (c) 34% of the restricted stock units will vest on the third anniversary of the grant date; provided that, in each case, the employee remains employed by the Company from the grant date through the applicable service vesting date.

The Company also maintains the Director Deferred Share Plan (the "Director Plan") pursuant to which it can issue restricted stock units to its nonemployee directors. A restricted stock unit is equivalent to one share of the Company's common stock and is payable only in common stock issued under the ISAP upon a director ceasing service as a member of the Board of Directors of the Company. The restricted stock units vest immediately upon grant and are credited to each of the non-employee director's retirement accounts under the Director Plan. Restricted stock units issued under the Director Plan contain the right to a dividend equivalent award in the form of additional restricted stock units. The dividend equivalent award is calculated using the same rate as the cash dividend paid on a share of the Company's common stock, and then divided by the closing price of the Company's common stock on the date the dividend is paid to determine the number of additional restricted stock units to grant.

- 11 -

Dividend equivalent awards have the same vesting terms as the underlying awards. During the nine months ended September 30, 2017, the Company granted 366,828 restricted stock units to its non-employee directors pursuant to the Director Plan. As of September 30, 2017, non-employee directors held a total of 826,484 deferred restricted stock units.

For the three and nine months ended September 30, 2017 and 2016, the Company's stock-based compensation expense related to stock options, restricted stock and restricted stock units were as follows:

The Company expects to recognize that cost over a weighted average service period of 1.57 years. Restricted stock units have no voting or dividend rights until the awards are vested.

Changes in the Company's restricted stock units for the nine months ended September 30, 2017 and 2016 were as follows:

NOTE 7 – INCOME TAXES

Under ASC 270, "Interim Reporting", and ASC 740-270, "Income Taxes – Intra Period Tax Allocation", the Company is required to adjust its effective tax rate for each quarter to be consistent with the estimated annual effective tax rate. Jurisdictions with a projected loss for the full year where no tax benefit can be recognized are excluded from the calculation of the estimated annual effective tax rate. Applying the provisions of ASC 270 and ASC 740-270 could result in a higher or lower effective tax rate during a particular quarter, based upon the mix and timing of actual earnings versus annual projections.

Effective Tax Rate

The provision for income taxes for the nine months ended September 30, 2017 was \$1,525 on a pre-tax income from continuing operations of \$623, compared to a provision for income taxes of \$1,200 on pre-tax loss from continuing operations of \$7,625 for the same period in 2016. The Company's effective income tax rate was positive 244.8% and negative 15.7% for the nine months ended September 30, 2017 and 2016, respectively. For the nine months ended September 30, 2017, the effective tax rate differed from the U.S. Federal statutory rate of 35% primarily due to the inability of the Company to recognize tax benefits on certain losses until positive earnings are achieved in the U.S. and certain other foreign jurisdictions, non-deductible expenses, and variations from the U.S. tax rate in foreign jurisdictions. For the nine months ended September 30, 2016, the effective tax rate differed from the U.S. Federal statutory rate of 35% primarily due to the inability of the Company to recognize tax benefits on certain losses until positive of the Company to recognize tax benefits on certain differed from the U.S. Federal statutory rate of 35% primarily due to the inability of the Company to recognize tax benefits on certain losses until positive earnings are achieved in the U.S. and certain other foreign jurisdictions, a decrease in tax benefits that were previously recognized, non-deductible expenses, and variations from the U.S. tax rate in foreign jurisdictions.

Uncertain Tax Positions

As of September 30, 2017 and December 31, 2016, the Company had \$2,204 and \$2,211, respectively, of unrecognized tax benefits, including interest and penalties, which if recognized in the future, would lower the Company's annual effective income tax rate. Accrued interest and penalties were \$671 and \$610 as of September 30, 2017 and December 31, 2016, respectively. Estimated interest and penalties are classified as part of the provision for income taxes in the Company's Condensed Consolidated Statement of Operations and totaled to a provision of \$29 and \$31 for the nine months ended September 30, 2017 and 2016, respectively.

In many cases, the Company's unrecognized tax benefits are related to tax years that remain subject to examination by the relevant tax authorities. Tax years with net operating losses ("NOLs") remain open until such losses expire or until the statutes of limitations for those years when the NOLs are used expire. As of September 30, 2017, the Company's open tax years, which remain subject to examination by the relevant tax authorities, were principally as follows:

	Year
Earliest tax years which remain subject to examination by the relevant tax authorities:	
U.S. Federal	2014
Majority of U.S. state and local jurisdictions	2012
United Kingdom	2015
Australia	2013
Majority of other non-U.S. jurisdictions	2012

The Company believes that its tax reserves are adequate for all years that remain subject to examination or are currently under examination.

Based on information available as of September 30, 2017, it is reasonably possible that the total amount of unrecognized tax benefits could decrease in the range of \$200 to \$500 over the next 12 months as a result of projected resolutions of global tax examinations and controversies and potential expirations of the applicable statutes of limitations.

NOTE 8 – EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share is computed by dividing the Company's net income (loss) by the weighted average number of shares outstanding during the period. When the effects are not anti-dilutive, diluted earnings (loss) per share is computed by dividing the Company's net income (loss) by the weighted average number of shares outstanding and the impact of all dilutive potential common shares, primarily stock options "in-the-money", unvested restricted stock and unvested restricted stock units. The dilutive impact of stock options, unvested restricted stock, and unvested restricted stock units is determined by applying the "treasury stock" method. Performance-based restricted stock awards are included in the computation of diluted earnings per share only to the extent that the underlying performance conditions: (i) are satisfied prior to the end of the reporting period; or (ii) would be satisfied if the end of the reporting period were the end of the related performance period and the result would be dilutive under the treasury stock method. Stock awards subject to vesting or exercisability based on the achievement of market conditions are included in the computation of diluted earnings per share only when the market conditions are met.

A reconciliation of the numerators and denominators of the basic and diluted earnings (loss) per share calculations for the three and nine months ended September 30, 2017 and 2016 were as follows:

(a) The diluted weighted average number of shares of common stock outstanding did not differ from the basic weighted average number of shares of common stock outstanding because the effects of any potential common stock equivalents (see Note 6 for further details on outstanding stock options, unvested restricted stock units and unvested restricted stock) were anti-dilutive and therefore not included in the calculation of the denominator of dilutive earnings per share.

- 15 -

The weighted average number of shares outstanding used in the computation of diluted net income (loss) per share for the three and nine months ended September 30, 2017 and 2016 did not include the effect of the following potentially outstanding shares of common stock because the effect would have been anti-dilutive:

NOTE 12 – BUSINESS REORGANIZATION

The Board approved reorganization plans in prior years (the "Previous Plans"). Business exit costs associated with Previous Plans primarily consisted of employee termination benefits, lease termination payments and costs for elimination of contracts for certain discontinued services and locations.

For the nine months ended September 30, 2017, restructuring charges associated with these initiatives primarily included changes in estimates for lease termination payments for rationalized offices in Europe under the Previous Plans. Business reorganization for the three and nine months ended September 30, 2017 and 2016 by plan were as follows:

The following table contains amounts for Changes in Estimate and Payments related to the Previous Plans that were incurred or recovered during the nine months ended September 30, 2017 in continuing operations. The amounts in the "Changes in Estimate" and "Additional Charges" columns are classified as business reorganization in the Company's Condensed Consolidated Statement of Operations. Changes in the accrued business reorganization for the nine months ended September 30, 2017 were as follows:

NOTE 13 – COMMITMENTS AND CONTINGENCIES

Consulting, Employment and Non-compete Agreements

The Company has entered into various consulting and employment agreements with certain key members of management. These agreements generally (i) are one year in length, (ii) contain restrictive covenants, (iii) under certain circumstances, provide for compensation and, subject to providing the Company with a release, severance payments, and (iv) are automatically renewed annually unless either party gives sufficient notice of termination.

Litigation and Complaints

The Company is subject, from time to time, to various claims, lawsuits, contracts disputes and other complaints from, for example, clients, candidates, suppliers, landlords for both leased and subleased properties, former and current employees, and regulators or tax authorities arising in the ordinary course of business. The Company routinely monitors claims such as these, and records provisions for losses when the claim becomes probable and the amount due is estimable. Although the outcome of these claims cannot be determined, the Company believes that the final resolution of these matters will not have a material adverse effect on the Company's financial condition, results of operations or liquidity.

For matters that have reached the threshold of probable and estimable, the Company has established reserves for legal, regulatory and other contingent liabilities. The legal reserves are included under the caption "Other non-current liabilities" in the Condensed Consolidated Balance Sheets. The Company's reserves were \$118 and \$105 as of September 30, 2017 and December 31, 2016, respectively.

Costs Associated with Termination

As previously disclosed, in May 2015, the Company incurred compensation and benefits obligations to its former Chairman and Chief Executive Officer, Manuel Marquez, under his employment agreement, dated March 7, 2011, in connection with the Company providing Mr. Marquez notice of non-renewal of his employment agreement, which was treated as a termination without cause. The Company had accrued \$747 as of March 31, 2016 in connection with compensation and benefits Mr. Marquez was entitled to upon a termination without cause, subject to his execution of a release. Mr. Marquez did not agree with the Company's treatment of compensation and benefits under his employment agreement and, in August 2015, filed an arbitration claim against the Company for additional amounts of up to approximately \$2,000 and reimbursement of his legal fees.

On May 27, 2016, the arbitrator issued his decision on Mr. Marquez's claim and awarded Mr. Marquez approximately \$1,800 in additional compensation and benefits and approximately \$700 toward the reimbursement of a portion of his legal fees incurred pursuing his claim. For the three and nine months ended September 30, 2016, the Company recorded an additional charge of \$0 and \$3,025, respectively for the resolution of this arbitration.

Asset Retirement Obligations

The Company has certain asset retirement obligations that are primarily the result of legal obligations for the removal of leasehold improvements and restoration of premises to their original condition upon termination of leases. The non-current asset retirement obligations are included under the caption "Other non-current liabilities" in the Condensed Consolidated Balance Sheets. The Company's asset retirement obligations that are included in the Condensed Consolidated Balance Sheets as of September 30, 2017 and December 31, 2016 were as follows:

	Sep	tember 30, 2017	December 31, 2016

NOTE 14 – CREDIT AGREEMENTS

Receivables Finance Agreement with Lloyds Bank Commercial Finance Limited and Lloyds Bank PLC

On August 1, 2014, the Company's U.K. subsidiary ("U.K. Borrower") entered into a receivables finance agreement for an asset-based lending funding facility (the "Lloyds Agreement") with Lloyds Bank PLC and Lloyds Bank Commercial Finance Limited (together, "Lloyds"). Until September 15, 2016, the Lloyds Agreement provided the U.K. Borrower with the ability to borrow up to \$20,099 (£15,000), at which time the U.K. Borrower entered into an amendment to the Lloyds Agreement that reduced the borrowing limit to \$16,079 (£12,000). Extensions of credit are based on a percentage of the eligible accounts receivable less required reserves from the Company's U.K. operations. Borrowings under this facility are secured by substantially all of the assets of the U.K. Borrower. The initial term was two years with renewal periods every three months thereafter.

On September 15, 2017, the Lloyds Agreement was further amended to (1) reduce the maximum core facility borrowing to \$12,729 (£9,500) from \$15,409 (£11,500), which as a result, reduced the maximum borrowings to \$13,399 (£10,000) from \$16,079 (£12,000), (2) extend the term by 12 months from the date of the amendment, and (3) reduce the month end minimum excess availability to \$2,010 (£1,500) from \$2,680 (£2,000).

The credit facility under the Lloyds Agreement contains two tranches. The first tranche is a revolving facility based on the billed contracting and permanent recruitment activities in the U.K. operations ("Lloyds Tranche A"). The borrowing limit of Lloyds Tranche A is \$12,729 (£9,500) and is based on 83% of eligible billed contracting and permanent recruitment receivables. The second tranche is a revolving facility that is based on the unbilled work-in-progress (as defined under the receivables finance agreement) activities in the Company's U.K. operations ("Lloyds Tranche B"). The borrowing limit of Lloyds Tranche B is \$670 (£500) and is based on 25% of eligible work-in-progress from permanent recruitment activities. For both tranches, borrowings may be made with an interest rate based on a base rate as determined by Lloyds Bank PLC, based on the Bank of England base rate, plus 1.75%.

The Lloyds Agreement contains various restrictions and covenants including (1) that true credit note dilution may not exceed 5%, measured at audit on a regular basis; (2) debt turn may not exceed 55 days over a three month rolling period; (3) dividends by the U.K. Borrower to the Company are restricted to the value of post-tax profits; and (4) at the end of each month, there must be a minimum excess availability of \$2,010 (£1,500).

The details of the Lloyds Agreement as of September 30, 2017 were as follows:

	S	eptember 30, 2017
Borrowing capacity	\$	7,149
Less: outstanding borrowing		(1,873)
Additional borrowing availability	\$	5,276
Interest rates on outstanding borrowing		2.00%

The Company was in compliance with all financial covenants under the Lloyds Agreement as of September 30, 2017.

Facility Agreement with National Australia Bank Limited

The Finance Agreement provides a bank guarantee facility of up to \$2,350 (AUD 3,000) for Hudson Australia and Hudson New Zealand. The Finance Agreement matures and becomes due and payable on October 27, 2018. A fee equal to 1.5% per

The Australian Receivables Agreement provides a receivables facility of up to \$19,583 (AUD 25,000) for Hudson Australia, which is based on an agreed percentage of eligible accounts receivable, and of which up to \$3,133 (AUD 4,000) may be used to support the working capital requirements of operations in China, Hong Kong and Singapore. The Australian Receivables Agreement does not have a stated maturity date and can be terminated by Hudson Australia or NAB upon 90 days written notice. The Company operates in three reportable segments: the Hudson regional businesses of Hudson Americas, Hudson Asia Pacific, and Hudson Europe. Corporate expenses are reported separately from the three reportable segments and pertain to certain functions, such as executive management, corporate governance, human resources, accounting, administration, tax and treasury, the majority of which are attributable to and have been allocated to the reportable segments. The Company's financial reporting systems present various data for management to run the business, including internal profit and loss statements prepared on a basis not consistent with U.S. GAAP. Accounts receivable, net and long-lived assets are the only significant assets separated by segment for internal reporting purposes.

Current Market Conditions

Economic conditions in most of the world's major markets remain mixed. In the U.K., the referendum to exit the European Union (commonly referred to as "Brexit") adversely impacted global markets, including currencies, and resulted in a decline in the value of the British pound as compared to the U.S. dollar. A weaker British pound compared to the U.S. dollar during a reporting period causes local currency results of the Company's U.K. operations to be translated into fewer U.S. dollars. The Company's U.K. operations, future financial performance and translation of results may be affected, in part, by the outcome of tariff, trade, regulatory, and other negotiations as the U.K. negotiates its exit from the European Union.

Conditions in Continental Europe have shown improvement with GDP growth in most of the major markets, as well as forecasted GDP growth for the remainder of 2017, although the political situation in Spain could negatively impact GDP growth in the short term. Australia faces a modest GDP growth outlook for the remainder of 2017, and the outlook for Asia is improving as China's growth outlook has stabilized.

The Company closely monitors the economic environment and business climate in its markets and responds accordingly. At this time, the Company is unable to accurately predict the outcome of these events or changes in general economic and political conditions and their effect on the demand for the Company's services.

Financial Performance

The Company achieved positive financial performance for the third quarter of 2017 in most of the markets in which it operates. On a constant currency basis, for the three months ended September 30, 2017, revenue increased by \$7.2 million, or 6.5%, and gross margin increased by \$2.6 million, or 5.7%, respectively, compared to the same period in 2016.

The changes in revenue and gross margin were driven by strong results in Asia, Australia/New Zealand, and Continental Europe, partially offset by declines in revenue and gross margin in the U.K.

Constant Currency

The Company operates on a global basis, with the majority of its gross margin generated outside of the U.S. Accordingly, fluctuations in foreign currency exchange rates can affect the Company's results of operations. For the discussion of reportable segment results of operations, the Company uses constant currency information. Constant currency compares financial results between periods as if exchange rates had remained constant period-over-period. The Company defines the term "constant currency" to mean that financial data for a previously reported period are translated into U.S. dollars using the same foreign currency exchange rates that were used to translate financial data for the current period. The Company's management reviews and analyzes business results in constant currency and believes these results better represent the Company's underlying business trends. Changes in foreign currency exchange rates generally impact only reported earnings.

Changes in revenue, gross margin, SG&A and Non-Op, business reorganization, operating income (loss), net income (loss) and EBITDA (loss) from continuing operations include the effect of changes in foreign currency exchange rates. The tables below summarize the impact of foreign currency exchange adjustments on the Company's operating results for the three and nine months ended September 30, 2017 and 2016.

(a) SG&A and Non-Op is a measure that management uses to evaluate the segments' expenses, which include the following captions on the Condensed Consolidated Statement of Operations: Salaries and related, Other selling, general and administrative, and other income (expense), net. Corporate management service allocations are included in the segments' other income (expense).

(b) See EBITDA reconciliation in the following section.

Use of EBITDA (Non-GAAP measure)

Management believes EBITDA is a meaningful indicator of the Company's performance that provides useful information to investors regarding the Company's financial condition and results of operations. Management also considers EBITDA to be the best indicator of operating performance and most comparable measure across the regions in which the Company operates. Management also uses this measure to evaluate capital needs and working capital requirements. EBITDA should not be considered in isolation or as a substitute for operating income, or net income prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") or as a measure of the Company's profitability. EBITDA is derived from net income (loss) adjusted for the provision for (benefit from) income taxes, interest expense (income), and depreciation and amortization.

The reconciliation of EBITDA to the most directly comparable GAAP financial measure is provided in the table below:

Credit Agreements

Receivables Finance Agreement with Lloyds Bank Commercial Finance Limited and Lloyds Bank PLC

On August 1, 2014, the Company's U.K. subsidiary ("U.K. Borrower") entered into a receivables finance agreement for an asset-based lending funding facility (the "Lloyds Agreement") with Lloyds Bank PLC and Lloyds Bank Commercial Finance Limited (together, "Lloyds"). Until September 15, 2016, the Lloyds Agreement provided the U.K. Borrower with the ability to borrow up to \$20.1 million (£15.0 million), at which time the U.K. Borrower entered into an amendment to the Lloyds Agreement that reduced the borrowing limit to \$16.1 million (£12.0 million). Extensions of credit are based on a percentage of the eligible accounts receivable less required reserves from the Company's U.K. operations. The initial term was two years with renewal periods every three months thereafter. Borrowings under this facility are secured by substantially all of the assets of the U.K. Borrower.

On September 15, 2017, the Lloyds Agreement was further amended to (1) reduce the maximum core facility borrowing to \$12.7 million (£9.5 million) from \$15,409 (£11.5 million), which as a result, reduced the maximum borrowings to \$13.4 million (£10.0 million) from \$16.1 million (£12.0 million), (2) extend the term by 12 months from the date of the amendment, and (3) reduce the month end minimum excess availability to \$2.0 million (£1.5 million) from \$2.7 million (£2.0 million).

The credit facility under the Lloyds Agreement contains two tranches. The first tranche is a revolving facility based on the billed contracting and permanent recruitment activities in the U.K. operations ("Lloyds Tranche A"). The borrowing limit of Lloyds Tranche A is \$12.7 million (£9.5 million) and is based on 83% of eligible billed contracting and permanent recruitment receivables. The second tranche is a revolving facility that is based on the unbilled work-in-progress (as defined under the receivables finance agreement) activities in the Company's U.K. operations ("Lloyds Tranche B"). The borrowing limit of

Lloyds Tranche B is \$0.7 million (£0.5 million) and is based on 25% of eligible work-in-progress from permanent recruitment activities. For both tranches, borrowings may be made with an interest rate based on a base rate as determined by Lloyds Bank PLC, based on the Bank of England base rate, plus 1.75%.

The Lloyds Agreement contains various restrictions and covenants including (1) that true credit note dilution may not exceed 5%, measured at audit on a regular basis; (2) debt turn may not exceed 55 days over a three month rolling period; (3) dividends by the U.K. Borrower to the Company are restricted to the value of post-tax profits; and (4) at the end of each month, there must be a minimum excess availability of \$2.0 million (£1.5 million).

The details of the Lloyds Agreement as of September 30, 2017 were as follows:

\$ in millions	Septem 20	
Borrowing capacity	\$	7.1
Less: outstanding borrowing		(1.9)
Additional borrowing availability	\$	5.2

Other Credit Agreements

The Company also has lending arrangements with local banks through its subsidiaries in Belgium and Singapore. The Belgium subsidiary has a \$1.2 million (≤ 1.0 million) overdraft facility. Borrowings under the Belgium lending arrangements may be made with an interest rate based on the one-month EURIBOR plus a margin, and was 2.75% as of September 30, 2017. The lending arrangement in Belgium has no expiration date and can be terminated with a 15-day notice period. There were no outstanding borrowings under the Belgium lending agreement as of September 30, 2017.

In Singapore, the Company's subsidiary can borrow up to \$0.1 million (SGD 0.2 million) for working capital purposes. Interest on borrowings under the Singapore overdraft facility is based on the Singapore Prime Rate plus a margin of 1.75%, and it was 6.00% on September 30, 2017. The Singapore overdraft facility expires annually each August, but can be renewed for one-year periods at that time. As of September 30, 2017, the Singapore overdraft facility had outstanding borrowings of \$24 thousand (SGD 32 thousand) and additional borrowings availability of \$124 thousand (SGD 168 thousand).

The average aggregate monthly outstanding borrowings for the credit agreements above was \$11.8 million for the nine months ended September 30, 2017. The weighted average interest rate on all outstanding borrowings for the nine months ended September 30, 2017 was 3.04%.

The Company continues to use the aforementioned credit to support its ongoing global working capital requirements, capital expenditures and other corporate purposes and to support letters of credit. Letters of credit and bank guarantees are used primarily to support office leases.

Liquidity Outlook

As of September 30, 2017, the Company had cash and cash equivalents on hand of \$16.8 million, supplemented by additional borrowing availability of \$20.1 million under the Lloyds Agreement, the NAB Facility Agreement and other lending arrangements in Belgium and Singapore. The Company believes that it has sufficient liquidity to satisfy its needs through at least the next 12 months, based on the Company's total liquidity as of September 30, 2017. The Company's near-term cash requirements during 2017 are primarily related to funding operations. For the full year 2017, the Company expects to make capital expenditures of approximately \$1.0 million to \$1.5 million and payments in connection with previous years restructuring actions of \$2.0 million to \$2.5 million.

As of September 30, 2017, \$5.2 million of the Company's cash and cash equivalents noted above were held in the U.S. and the remainder were held outside the U.S., primarily in Belgium (\$3.2 million), the U.K. (\$2.1 million), Spain (\$1.6 million), Mainland China (\$1.5 million) and France (\$1.4 million). The majority of the Company's offshore cash is available to it as a source of funds, net of any tax obligations or assessments. Unrepatriated cumulative earnings of certain foreign subsidiaries are considered to be invested indefinitely outside of the U.S., except where the Company is able to repatriate these earnings to the U.S. without a material incremental tax provision. In managing its day-to-day liquidity and its capital structure, the Company does not rely on the unrepatriated earnings as a source of funds. The Company has not provided for U.S. Federal income or foreign withholding taxes on these undistributed foreign earnings because a distribution of these foreign earnings with material incremental tax provision is unlikely to occur in the foreseeable future. It is not practicable to determine the amount of tax associated with such undistributed earnings.

The Company believes that future external market conditions remain uncertain, particularly access to credit, rates of near-term projected economic growth and levels of unemployment in the markets in which the Company operates. Due to these uncertain external market conditions, the Company cannot provide assurance that its actual cash requirements will not be greater in the future than those currently expected, especially if market conditions deteriorate substantially. If sources of liquidity are not available or if the Company cannot generate sufficient cash flow from operations, the Company could be required to obtain additional sources of funds through additional operating improvements, capital market transactions, asset sales or financing from third parties, or a combination of those sources. The Company cannot provide assurance that these additional sources of funds will be available or, if available, would have reasonable terms.

Contingencies

From time to time in the ordinary course of business, the Company is subject to compliance audits by federal, state, local and foreign government regulatory, tax and other authorities relating to a variety of regulations, including wage and hour laws, unemployment taxes, workers' compensation, immigration, and income, value-added and sales taxes. The Company is also subject to, from time to time in the ordinary course of business, various claims, lawsuits and other complaints from, for example, clients, candidates, suppliers, landlords for both leased and subleased properties, former and current employees, and regulators or tax authorities. Periodic events and management actions such as business reorganization initiatives can change the number and type of audits, claims, lawsuits, contract disputes or complaints asserted against the Company. Events can also change the likelihood of assertion and the behavior of third parties to reach resolution regarding such matters.

The economic circumstances in the recent past have given rise to many news reports and bulletins from clients, tax authorities and other parties about changes in their procedures for audits, payment, plans to challenge existing contracts and other such matters aimed at being more aggressive in the resolution of such matters in their own favor. The Company believes that it has appropriate procedures in place for identifying and communicating any matters of this type, whether asserted or likely to be asserted, and it evaluates its liabilities in light of the prevailing circumstances. Changes in the behavior of third parties could cause the Company to change its view of the likelihood of a claim and what might constitute a trend. Employment laws vary in the markets in which we operate, and in some cases, employees and former employees have extended periods during which they may bring claims against the Company.

For matters that have reached the threshold of probable and estimable, the Company has established reserves for legal, regulatory and other contingent liabilities. The Company's reserves were \$0.1 million and \$0.1 million as of September 30, 2017 and December 31, 2016, respectively. Although the outcome of these matters cannot be determined, the Company believes that none of the currently pending matters, individually or in the aggregate, will have a material adverse effect on the Company's financial condition, results of operations or liquidity.

FORWARD-LOOKING STATEMENTS

This Form 10-Q contains statements that the Company believes to be "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact included in this Form 10-Q, including statements regarding the Company's future financial condition, results of operations, business operations and business prospects, are forward-looking statements. Words such as "anticipate," "estimate," "expect," "project," "intend," "plan," "predict," "believe" and similar words, expressions and variations of these words and expressions are intended to identify forward-looking statements. All forward-looking statements are subject to important factors, risks, uncertainties and assumptions, including industry and economic conditions that could cause actual results to differ materially from those described in the forward-looking statements. Such factors, risks, uncertainties and assumptions include, but are not limited to, (1) global economic fluctuations, (2) the Company's ability to successfully execute its strategic initiatives, (3) risks related to fluctuations in the Company's operating results from quarter to quarter, (4) the ability of clients to terminate their relationship with the Company at any time, (5) competition in the Company's markets, (6) the negative cash flows and operating losses that the Company has experienced in recent periods and may experience from time to time in the future, (7) restrictions on the Company's operating flexibility due to the terms of its credit facilities, (8) risks related to international operations, including foreign currency fluctuations, (9) the Company's dependence on key management personnel, (10) the Company's ability to attract and retain highly-skilled professionals, (11) the Company's ability to collect its accounts receivable, (12) the Company's ability to achieve anticipated cost savings through the Company's cost reduction initiatives, (13) the Company's heavy reliance on information systems and the impact of potentially losing or failing to develop technology, (14) risks related to providing uninterrupted service to clients, (15) the Company's exposure to employment-related claims from clients, employers and regulatory authorities and limits on related insurance coverage, (16) the Company's ability to utilize net operating loss carry-forwards, (17) volatility of the Company's stock price, (18) the impact of government regulations, and (19) risks related to potential acquisitions or dispositions of businesses by the Company. ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company conducts operations in various countries and faces both translation and transaction risks related to foreign currency exchange. For the nine months ended September 30, 2017, the Company earned approximately 92% of its gross margin outside the U.S., and it collected payments in local currency and paid related operating expenses in such corresponding local currency. Revenues and expenses in foreign currencies translate into higher or lower revenues and expenses in U.S. dollars as the U.S. dollar weakens or strengthens against other currencies. Therefore, changes in exchange rates may affect our consolidated revenues and expenses (as expressed in U.S. dollars) from foreign operations.

Amounts invested in our foreign operations are translated into U.S. dollars at the exchange rates in effect at the balance sheet date. The resulting translation adjustments are recorded as a component of accumulated other comprehensive income in the stockholders' equity section of the Condensed Consolidated Balance Sheets. The translation of foreign currency into U.S. dollars is reflected as a component of stockholders' equity and does not impact our reported net income (loss).

The Brexit referendum resulted in a decline in the value of the British pound, as compared to the U.S. dollar. The Company's U.K. operations, future financial performance and translation of results may be affected, in part, by the outcome of tariff, trade, regulatory, and other negotiations as the U.K. negotiates its exit from the European Union.

As more fully described in Item 2 "Management's Discussion and Analysis of Financial Condition and Results of Operations," the Company has credit agreements with Lloyds Bank PLC and Lloyds Bank Commercial Finance Limited, National Australia Bank Limited and other credit agreements with lenders in Belgium and Singapore. The Company does not hedge the interest risk on borrowings under the credit agreements, and accordingly, it is exposed to interest rate risk on the borrowings under such credit agreements. Based on the Company's annual average borrowings in the current year, a 1% increase or decrease in interest rates on the Company's borrowings would not have a material impact on the Company's earnings.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has conducted an evaluation of the design and operation of the Company's disclosure controls and procedures, as such term is defined under Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures as of September 30, 2017.

Changes in internal control over financial reporting

There were no changes in the Company's internal control over financial reporting that occurred during the nine months ended September 30, 2017 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
